To VIKTOR[+].

A meeting took place with "METALLIST"[1] after his four-day stay in the Norwegian camp at GOTTORRA[GOTTORRA][11]. Besides the three courses previously mentioned, taking part[a] in courses there still are military political leaders who have already been studying[b] [4 groups uncovered] the first batch of students to pass[PERVYJ VIPUSK][c]. Notes: [a] Literally "still working".

[b] Or "occupying themselves with/engaged on".

[c] The translation of this sentence should be treated with considerable reserve: its present incomplete state makes it susceptible of numerous different interpretations, and only knowledge of the situation obtaining at the time will permit the correct one to be chosen.

[d] "VOENNE BORDINING", the term used here, is the exact equivalent of the English term "formation" i.e., division and above. It seems unlikely, however, that formations in this sense of the word existed in internment camps.

Comments: [i] VIKTOR: Lt. Gen. P.M. FIFIN.

[ii] METALLIST: i.e. "METAL-WORKER"; unidentified. First occurrence.

[iii] GOTTRONAL: 99.45N : 18.25E, SWEDEN.

[iv] MALSKEH: An estate and castle on the island of SELAÖ, north of MARKEPRED.
